

I am a new subscriber to the service of "XM Radio". In January of 2004, after talking with a family member who has "XM Radio", I decided that I would purchase a receiver and subscribe to this service. I thought to myself that I would give it a trial period of three months and if I didn't like it I would cancel my subscription and remove the receiver and sell it at auction on the internet. Well, it didn't take the intended three months that I had set aside to decide whether to keep it or not, it only took three weeks. And now, you couldn't pry it from my cold dead ears. I love it. I do quite a bit of traveling nationally and I spend an average of 6 hours a week in my vehicle commuting back and forth from the airport. Since I live in a rural area, I have to drive 3.5 hours to Nashville Airport, 2.5 hours to Memphis Airport, and 2.0 hours to Huntsville Airport. Let me tell you, it sure beats having to change the station all the time. Since my subscription started I have become more aware of the events taking place in my World, Nation and State. I have become an avid listener of "FOX NEWS CHANNEL" channel 121 on XM. And yes, I like to listen to the weather for which city that I am about to fly into. I respectfully urge you to reject petition 04-160 from the NAB.
